## HIGHLIGHTS

### GEN4 AMBI LOWER RECEIVER

Built on the Gen 4 lower, the P415 is ergonomic no matter your shooting side or style

### RENEGADE RAIL + HEAT SINK BARREL NUT

Our new Renegade Handguard with multiple QD points and patented oversized heat sink barrel nut for more effective heat dissipation.

### ANTI-TILT BUFFER TUBE

Eliminate stock rotation and prevent carrier tilt by supporting the back of the carrier, as well as reducing wear and tear on the bolt carrier and the buffer tube.

## THE AMERICAN REVOLUTION

We broke barriers and won awards when we released the piston driven .308 Revolution. By popular demand, The Revolution DI provides the same technology, same durability, same features, and same AR-15 size, but in a smaller direct impingement system featuring our 9-position adjustable Dictator gas block and Renegade rail. There is virtually nothing left to upgrade. The original Revolution weighed in at a paltry 7.35 pounds, turning heads for its incredible light weight and small stature for a .308. The Revolution DI weighs even less at 6.81 pounds with a 16.5" barrel, making it ideal for just about any situation you put it in
